All-in-one Digital Showroom Design

Transcending Dimensions Through Immersive Digital Showroom

Audax Visual provide a multifaceted showroom design service using advanced digital approach.

Sky Waters

Audax is proud to have been part of the team that worked on the showroom design for the stunning new skyscrapers in Singapore. we meticulously crafted an immersive and captivating showroom that showcases the grandeur and sophistication of these iconic skyscrapers.

Sky Waters

Audax is proud to have been part of the team that worked on the showroom design for the stunning new skyscrapers in Singapore. we meticulously crafted an immersive and captivating showroom that showcases the grandeur and sophistication of these iconic skyscrapers.

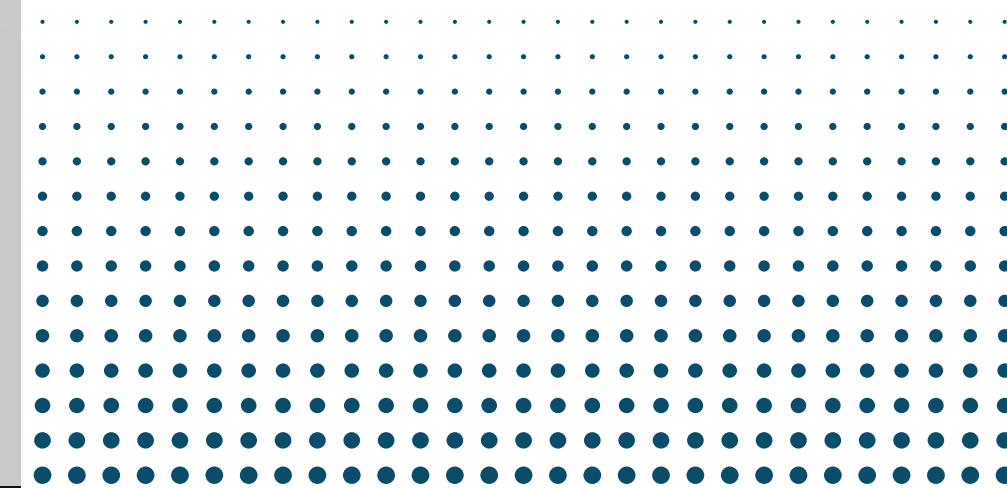

TMW Maxwell Show Gallery by CEL

In the TMW Maxwell Show Gallery by CEL project, we successfully deliver a range of LED products. Our team expertly installed a large transparent LED display, creating a visually stunning centerpiece that seamlessly blended with the surroundings and captivated viewers with its transparency and vibrant imagery. Additionally, we crafted a few unique four-sided LED boxes, providing a display from all angles and adding a sense of dynamism to the environment.

The Reserve Residences

For The Reserve Residences , we crafted a dynamic digital showroom that includes a striking large LED display for an impactful showroom introduction, 3D visual pillars strategically placed within the space to enhance the ambiance, and an interactive projection system that deliver exceptional experiences.

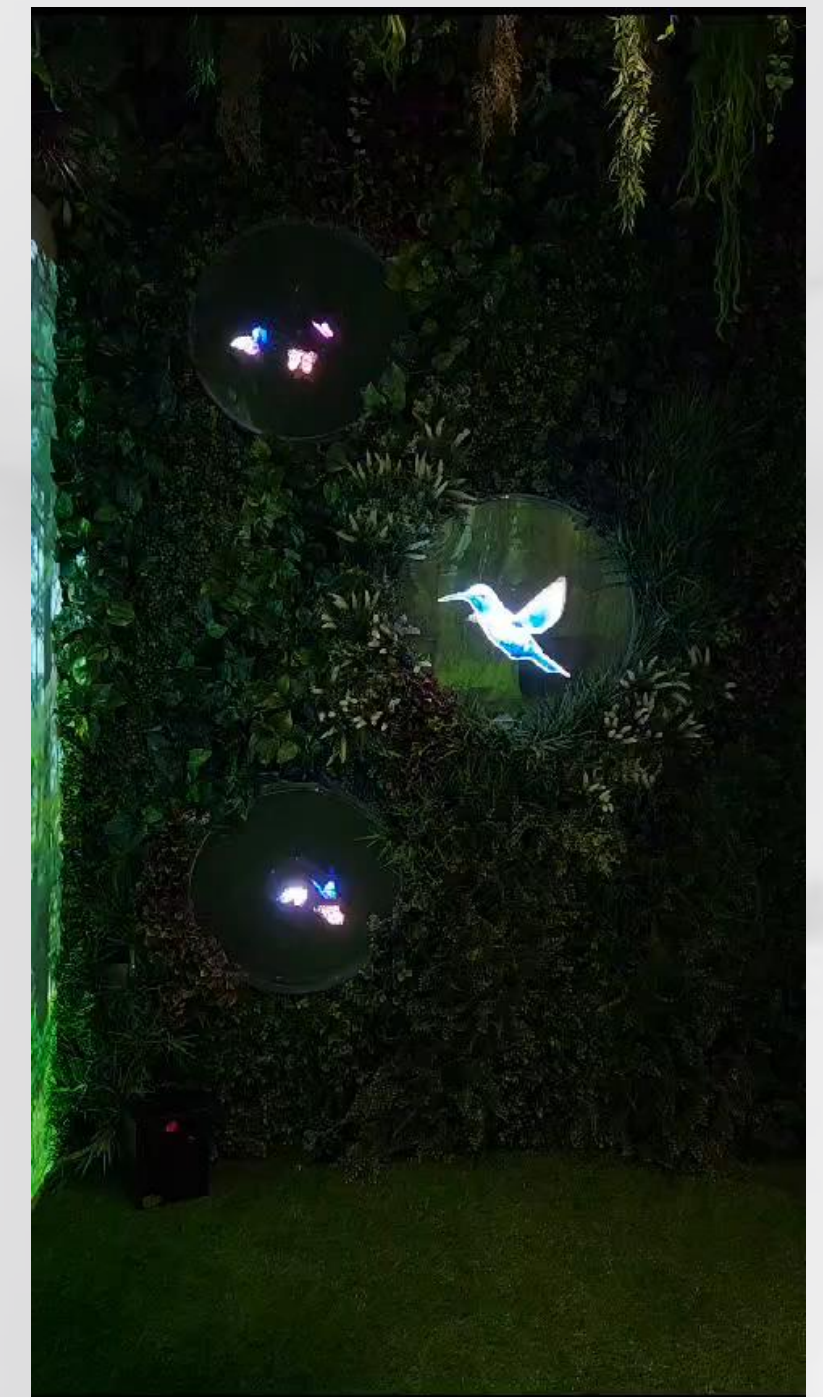

The LakeGarden Residences

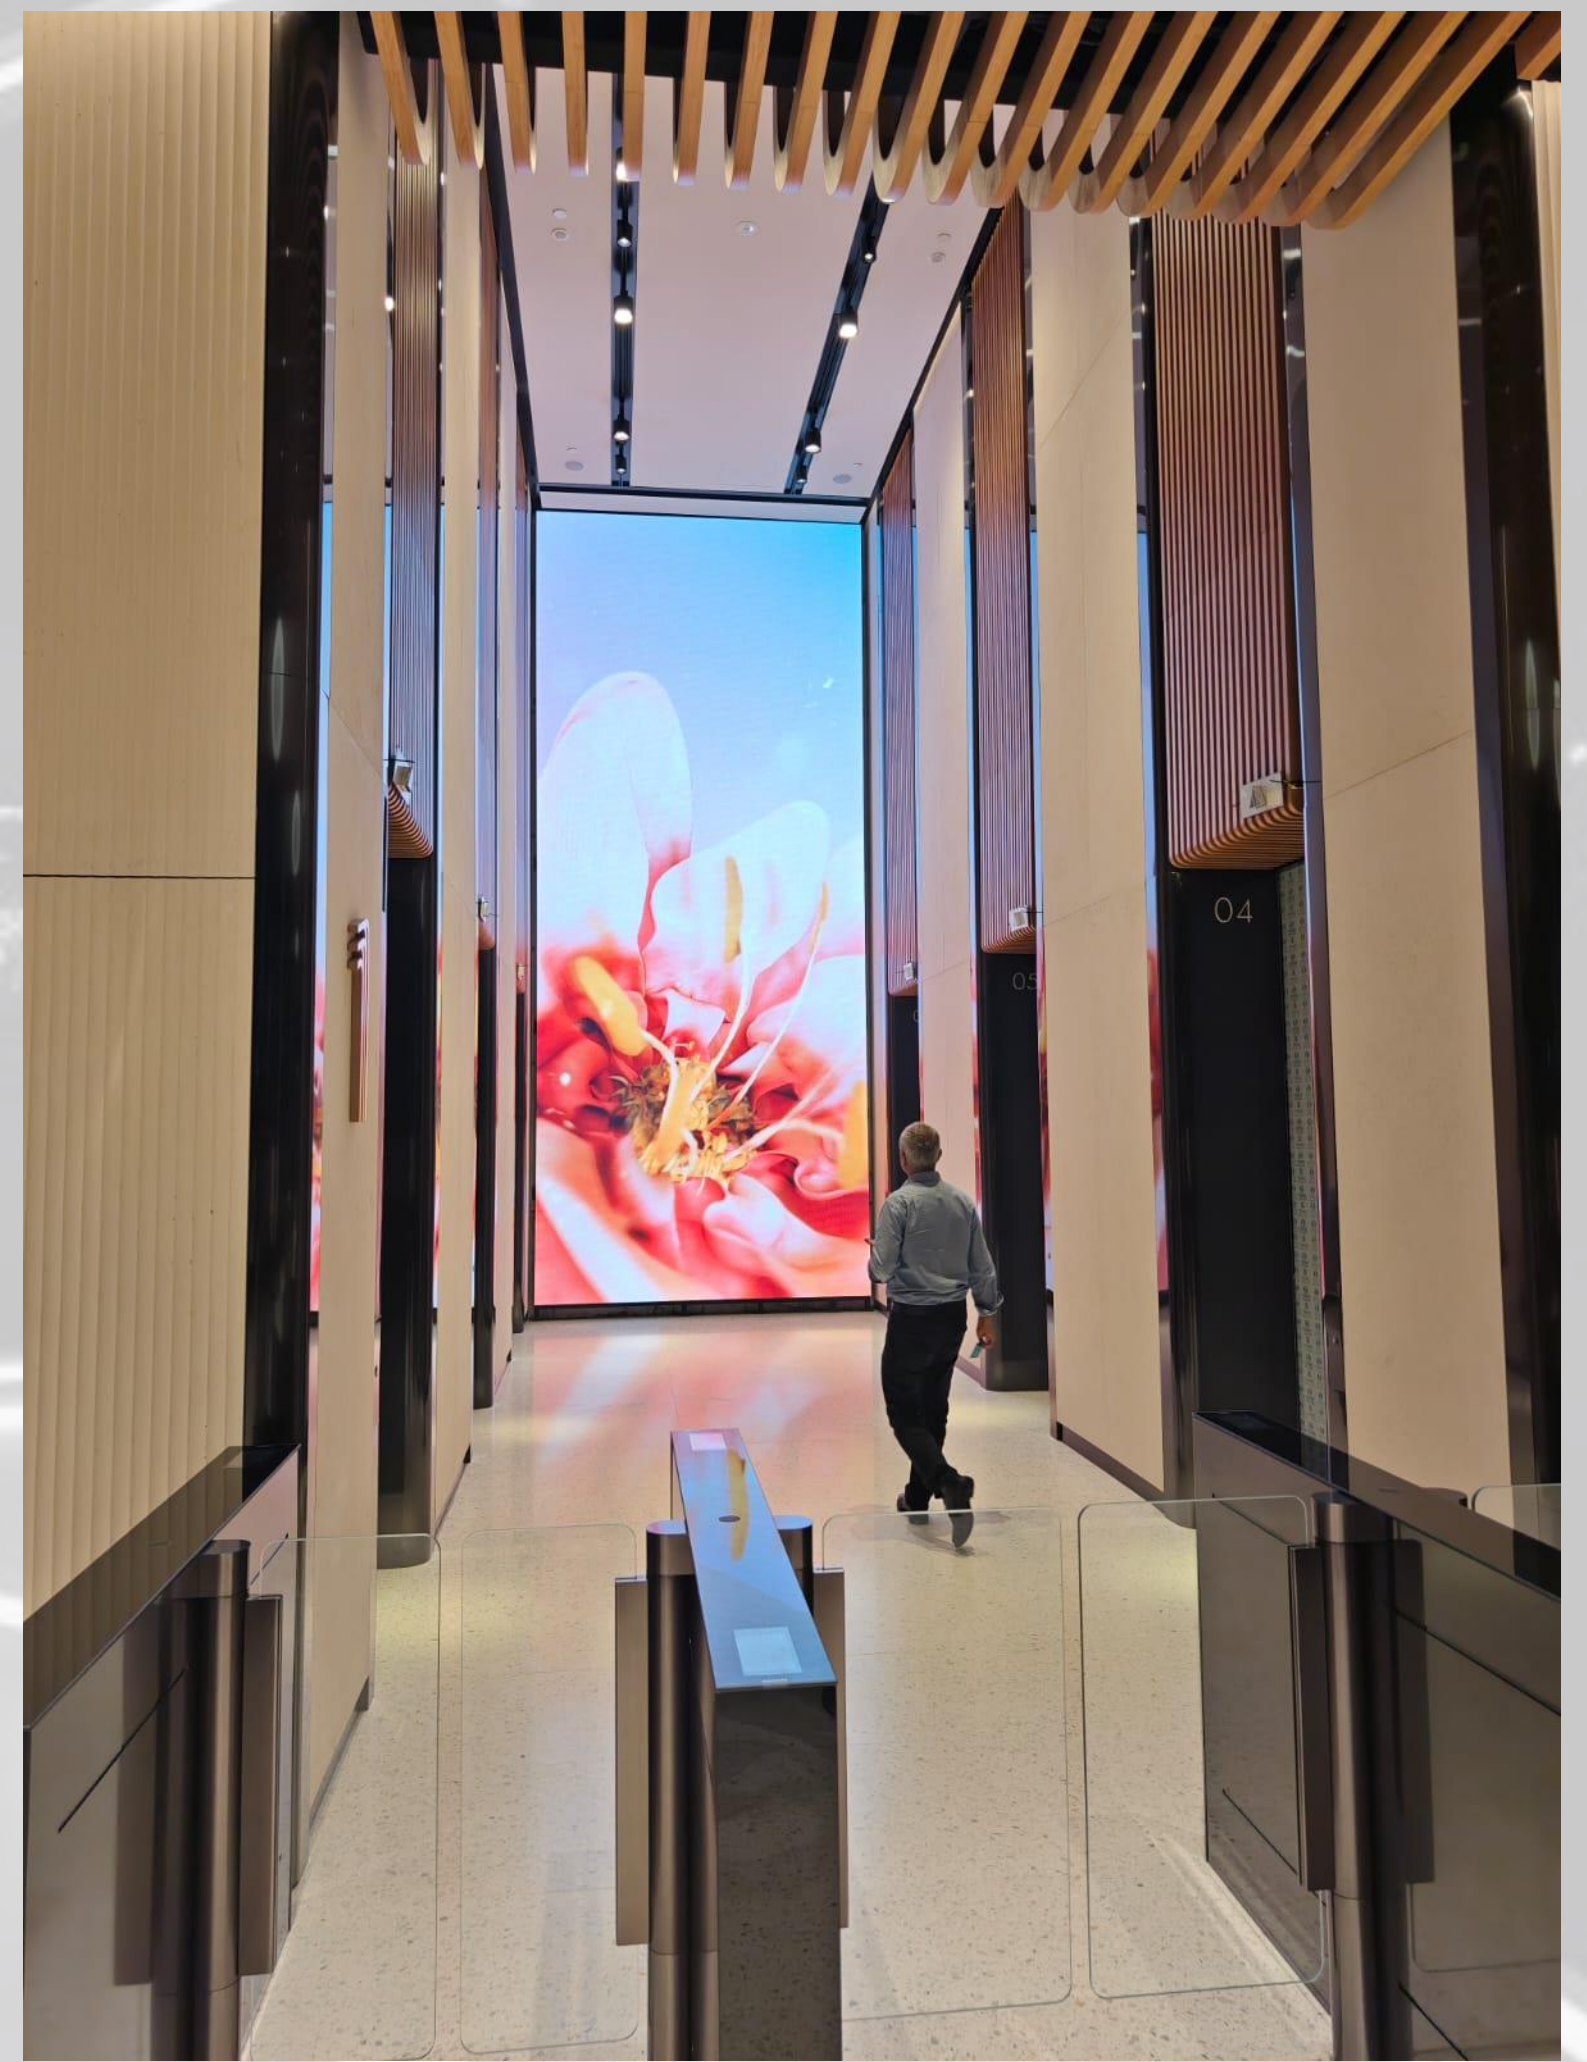

Pinetree Hill immersive Corridor

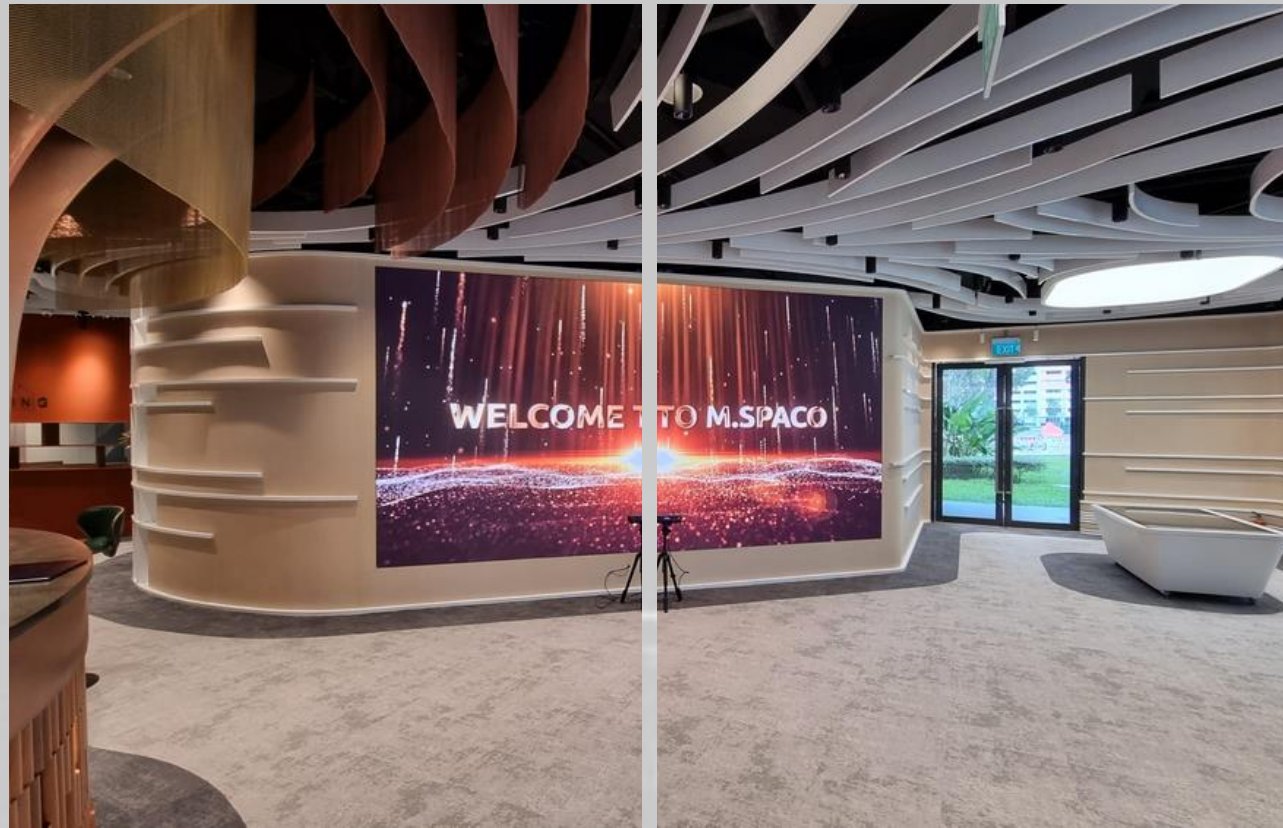

Audax created immersive corridor by combining projectors, LED fans and others. By incorporating elements such as natural sounds and fragrances, buyers can experience the current living environment and natural scenery in a realistic manner.

71 Robinson Road

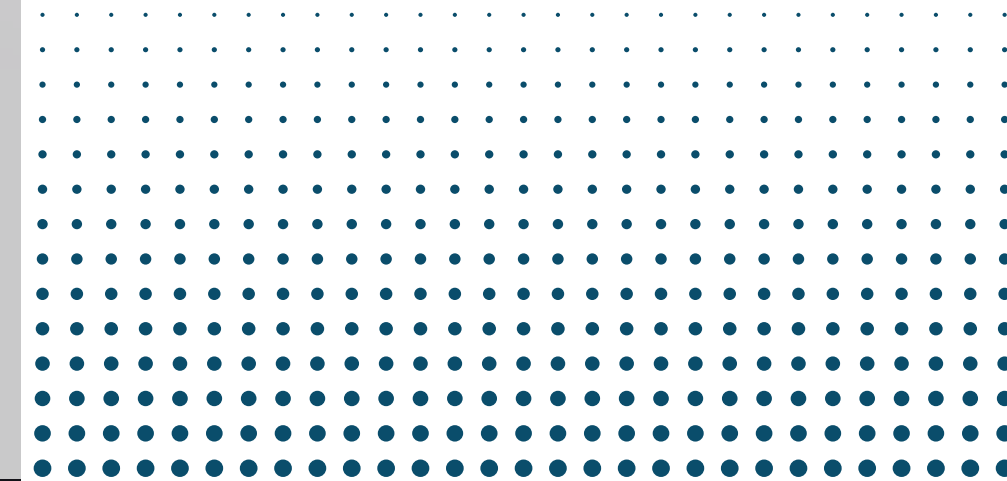

With special customized digital artwork for this new office tower, Audax provided fine pixel pitch LED screen to demonstrate for the best viewing experience

M Spaco

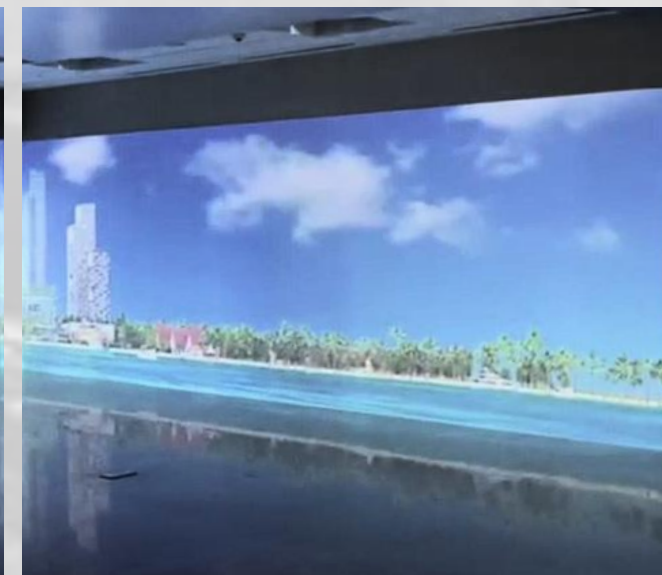

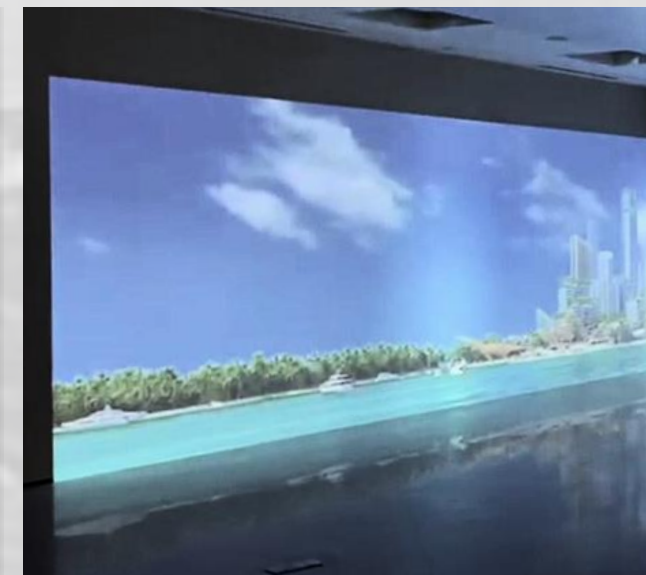

For M Spaco, we crafted a dynamic digital showroom that includes a striking large LED display for an impactful showroom introduction, 3D visual pillars strategically placed within the space to enhance the ambiance, and an interactive projection system that deliver exceptional experiences.

New Port by CDL

By harnessing the power of Digital screens and a customized program, Audax can effectively display real scenes from the show unit window, creating various moods to enhance CDL latest project.

18 Robinson Smart Show Gallery by Tuan Sing

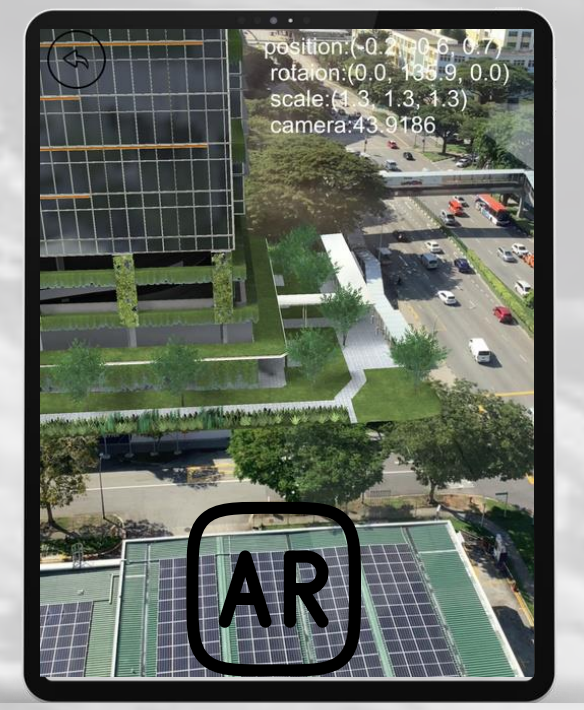

The trend of utilizing experiential technology for events reached a new high in 2020. Audax is one of the industry leading company that does show gal Experiential technology marketing has become a medium where brands can genuinely connect with their clients and establish a real connection with them. As leaders of cutting-edge technology, Audax can ensure that your brand is given maximum exposure and traffic in any advertising and retail spot.

Canninghill piers

Audax took great pride in being involved in one of the renowned projects in Singapore during 2022. We were responsible for designing and customizing diverse layouts of digital screens and content for Canninghill piers showflat, showcasing our expertise and creativity.

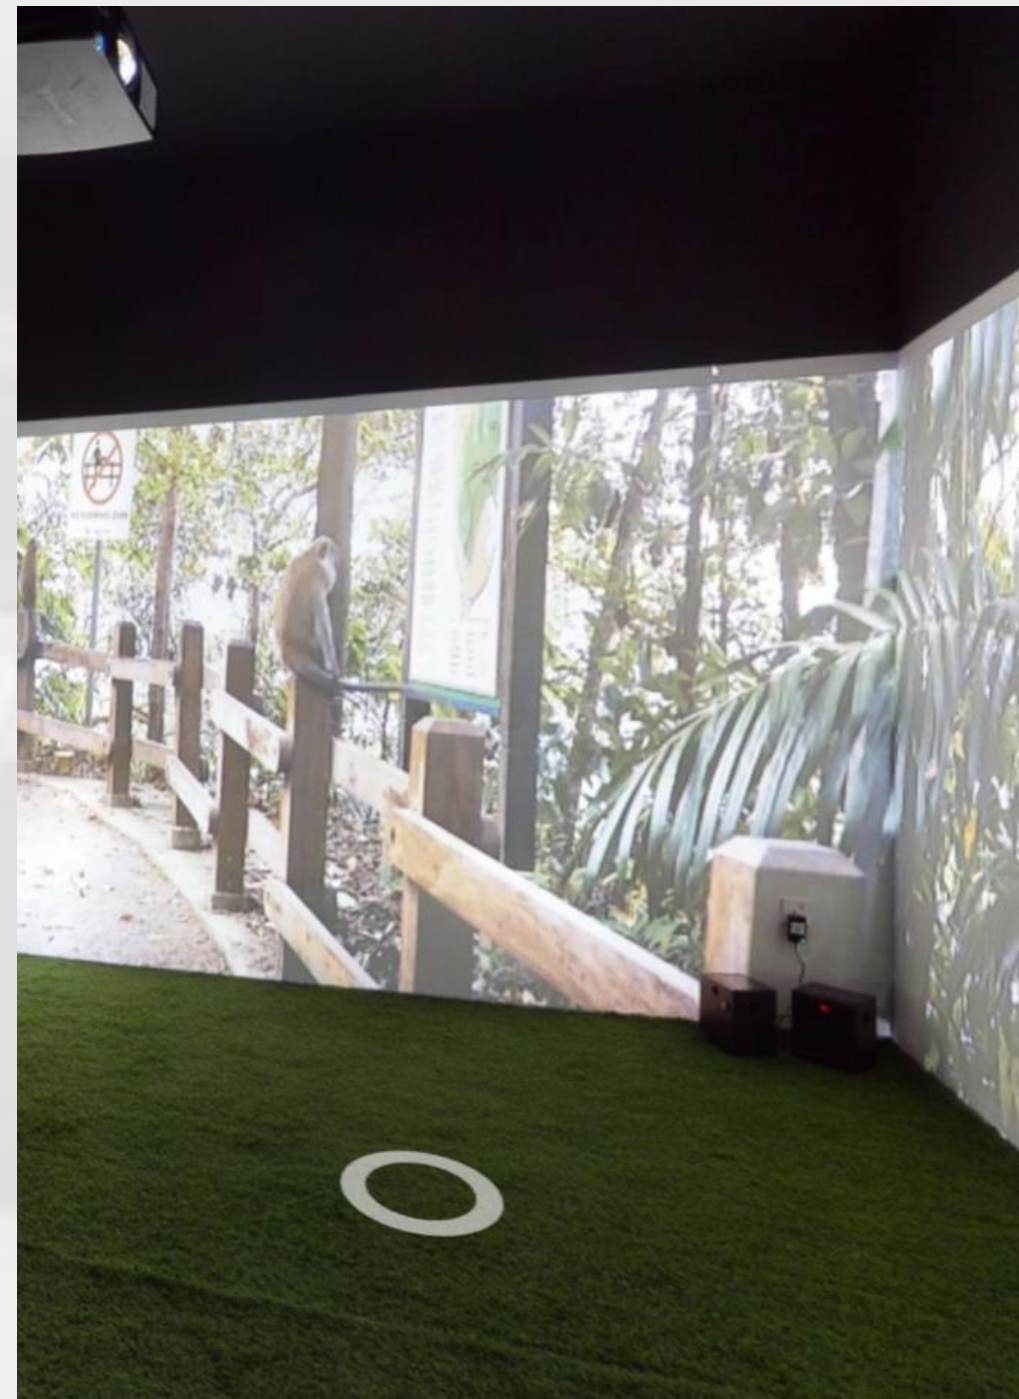

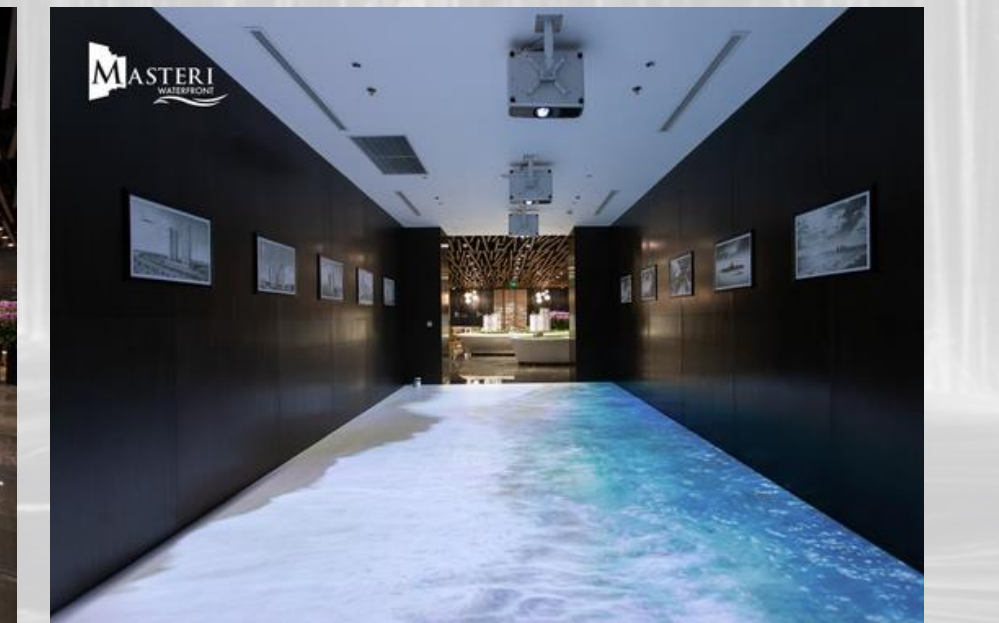

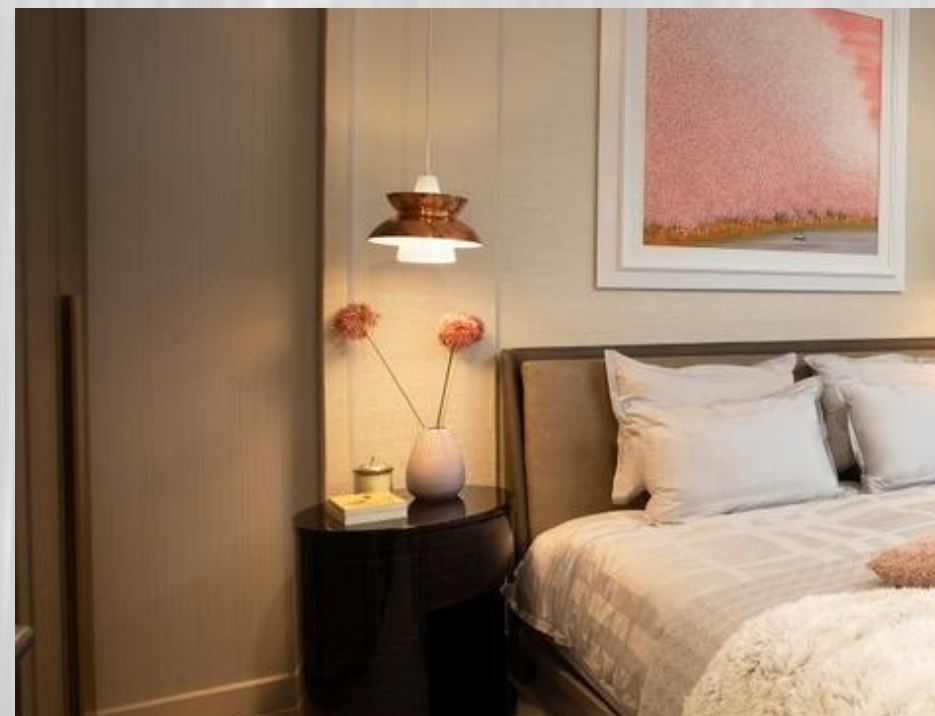

AR event for Certis Cisco Ground Breaking

With exceptional creativity and strong support from our IT team, Audax successfully ventured into developing customized programs, including an Augmented Reality program for upcoming Certis Cisco building. This program enabled the 3D models to seamlessly interact with the actual environment, providing clients with a convenient and immersive visualization of the future development.

Forett Smart Show Gallery

Audax created immersive smart showrooms for CNQC by combining projection, LED screens, and physical models. By incorporating elements such as natural sounds and fragrances, buyers can experience the current living environment and natural scenery in a realistic manner.

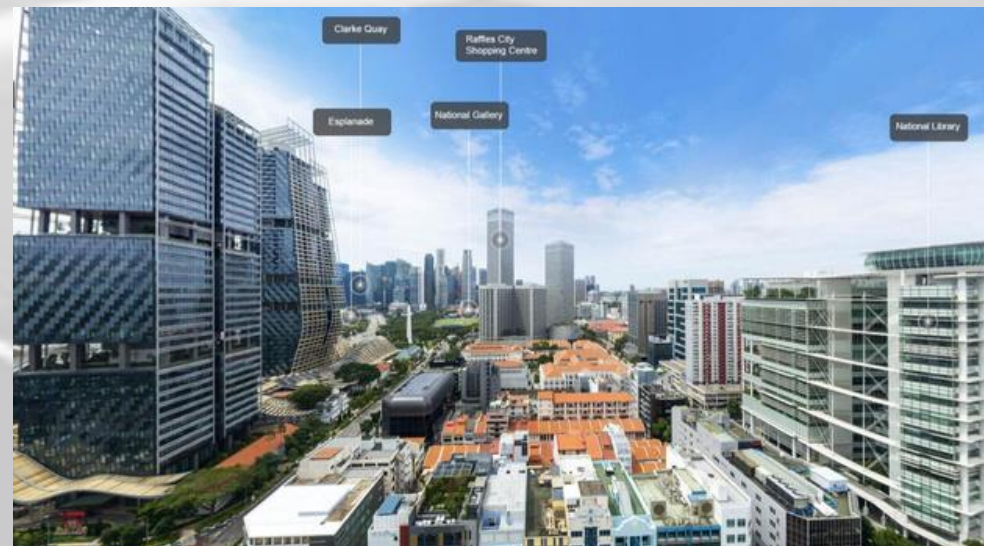

Masteri Waterfront Digital Showroom

Audax utilized an interactive projection walkway, LED screens, and a customized iPad control program to enhance the living experience of the project through our smart showroom displaying concept. Additionally, we applied our lighting smart control program to the actual scale model, further enhancing its functionality.

The

M Through integrating digital, interactive, and experiential technologies and content, Audax has collaborated with Wingtai to bring to life a futuristic show gallery. LED Media Wall Ceiling Screen Customized sales kit All in 1 Touch screen Panel Physical model.

Midtown Modern

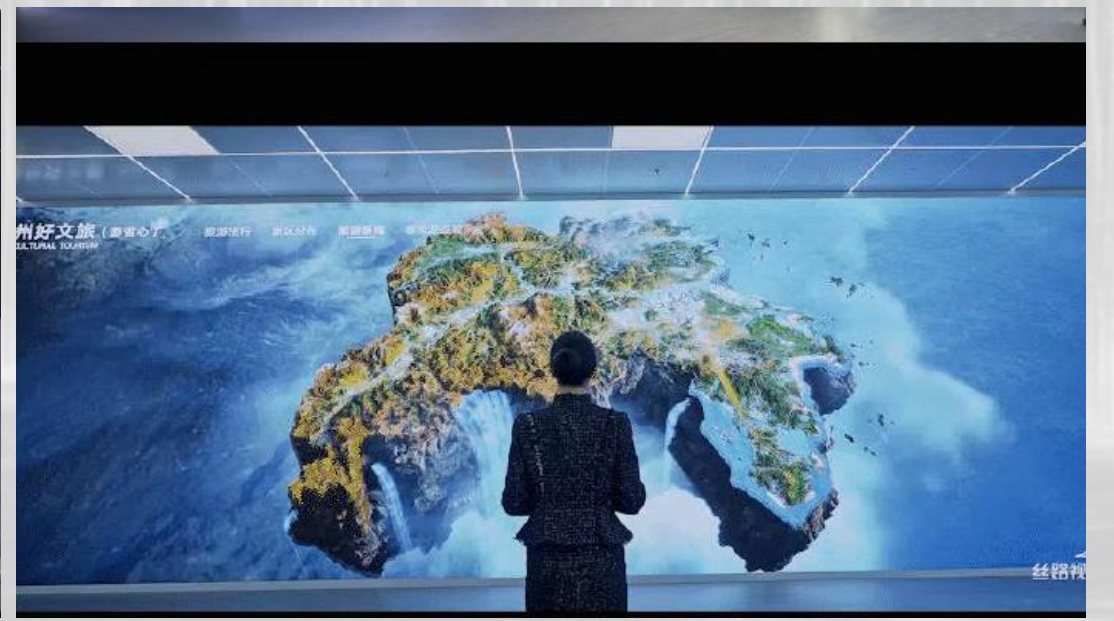

Audax created immersive smart showrooms for Guocoland by combining projection, LED screens, and physical models. By incorporating elements such as natural sounds and fragrances, buyers can experience the current living environment and natural scenery in a realistic manner.

Corporate Futuristic Showroom

OCTG has a unique core value that was inspired by the "Land Theory". In order to create and convey the story in visuals, Audax partnered with jiao yang to build this fusion visual for OCTG. Merging the traditional "Shan He Tu" art into a digital glass box, to create a artistic surrounding with a touch of futuristic element.

Tai Zhou " City Intelligence Project" Digital Exhibition

Zhe Jiang's Tai Zhou wants to display their future smart city planning. To match their vision and mission of urban planning, Audax once again partnered with Jiao Yang, building an iconic city planning exhibition with visual projection, and immersive art LED wall.

Nanjing Smart Property Showroom

We provide technology solutions for real estate presentations, advanced development, sophisticated visual planning, and smart manufacturing support. Our comprehensive solution maximizes the potential of digitization to effectively convey a project's core message and unique selling points

Enterprise Exhibition Center

Audax can also build exhibition centre for corporates with integrating digital, interactive, and experiential technologies and content.

International Technology Museum

Combining advanced technology development, we offer industry leading real estate presentation layout, sophisticated visual planning and smart manufacturing support, to create a comprehensive solution for real estate display.

Through maximizing the potential of digitization, we effectively convey the core message and unique selling point of a project, to achieve only the best conversion.
