

AUDAX GROUP
Envision The World With Technology

LED Panel

About us

Introducing Audax Group, a leading technology solutions provider based in Singapore. Established in 2010, our company is dedicated to delivering cutting-edge solutions to a diverse range of clients. Our team of IT engineers, creative consultants, graphic artists and designers work closely with clients to provide the ultimate viewing experience through advanced media display hardware.

We specialize in architectural, development, museum exhibitions, and government and private sector projects. Our expertise and innovative approach have established us as a trusted provider of premium technology solutions.

We are proud to offer 4 exciting products to enhance your business operations.

- ❖ - Maxhub is a comprehensive conference and education solution that revolutionizes the way people learn and communicate.
- ❖ - AI Robotics is an intelligent delivery robot that delivers food orders or other materials with ease and efficiency to customers.
- ❖ - Ecoprop is a property smart platform that combines both AI and VR for an immersive home viewing experience.
- ❖ - Audax Visuals can provide AR and VR solution for property developers, and exhibition halls designs

Our goal is to create a powerful connection between your product and your audience, helping you achieve your marketing objectives. With realistic visual content and advanced display technology, Audax Group is the one-stop solution for all your technology needs.
